

ZARGES

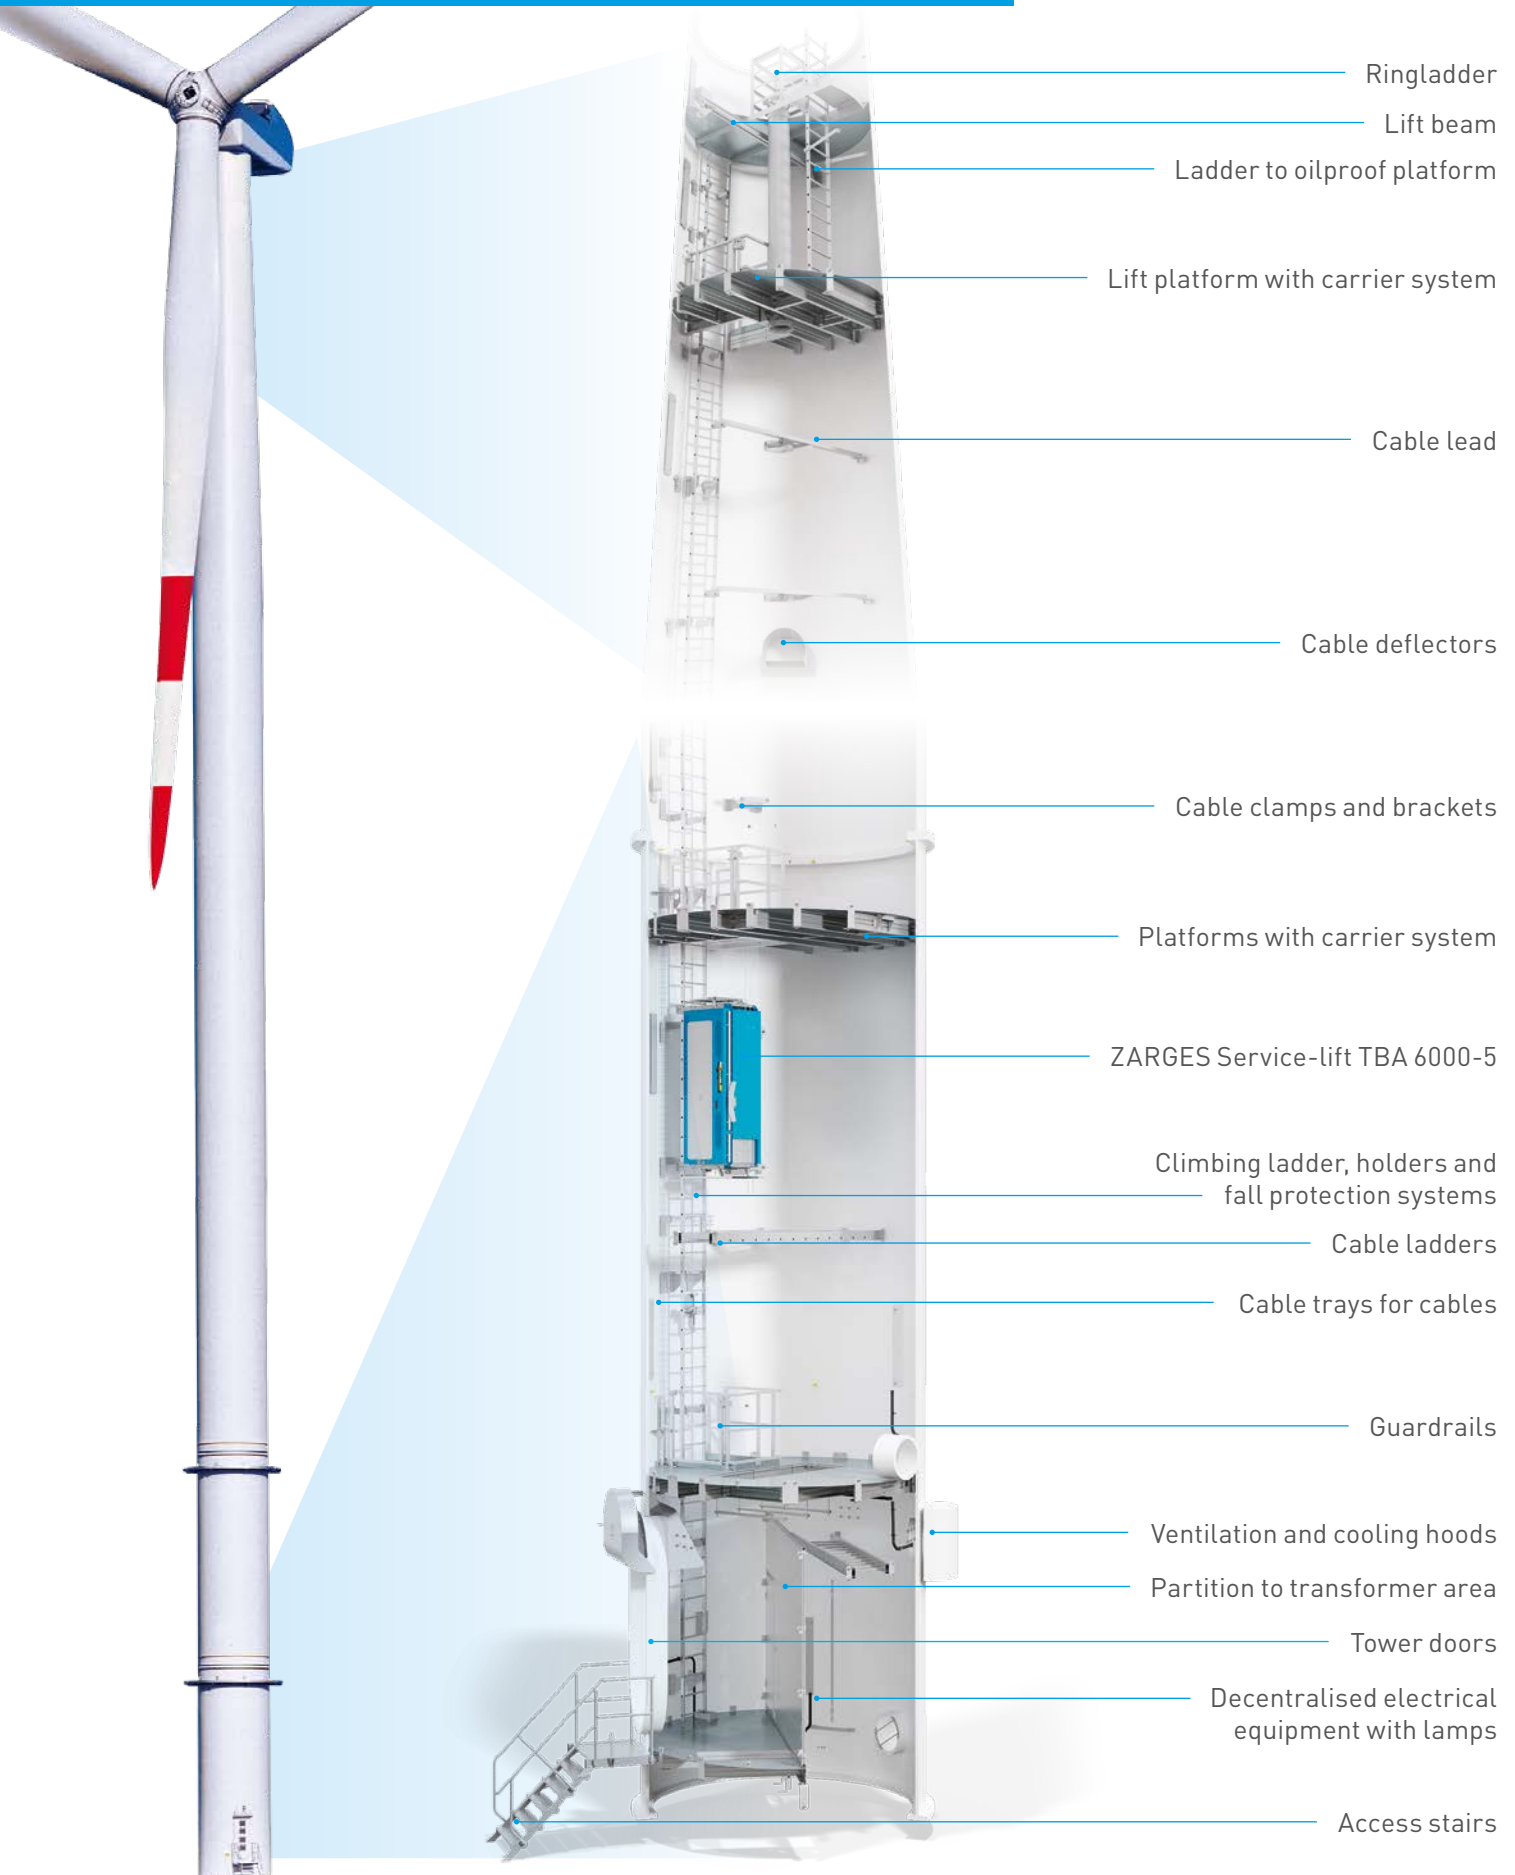

Special Solutions

for Wind Tower Internals

Tower internals at a glance

Assembly groups and components

ZARGES offers not only complete tower internals as a kit-set, but also individual assembly groups and components manufactured to the same philosophy – „simple installation.“

Fixed ladder systems

Fixed ladder system with arrester rail and platforms.

ZARGES Service-Lift TBA 6000-5

ZARGES Service-Lift TBA 6000-5 in accordance with Machinery Directive 2006, can be used in temperatures ranging from -40 to $+55^{\circ}\text{C}$. Optional extras include an ascent/descent warning light, acoustic signal and an emergency stop system.

Ventilation and cooling hoods

A variety of covers for the ventilation openings.

Access solutions and stairs

For access to the wind tower.

Other ZARGES products useful for performing maintenance work on your wind turbine tower:

ZARGES Box K 424 XC

This box is ideal for the safe transport of your equipment – for example your PPE!

ZARGES stairs and access steps

We also offer a wide range of solutions for other areas. And with our configurator, you can quickly and easily put together your own configuration.

Keep it simple – the ZARGES Kit-Set

SECTIONS

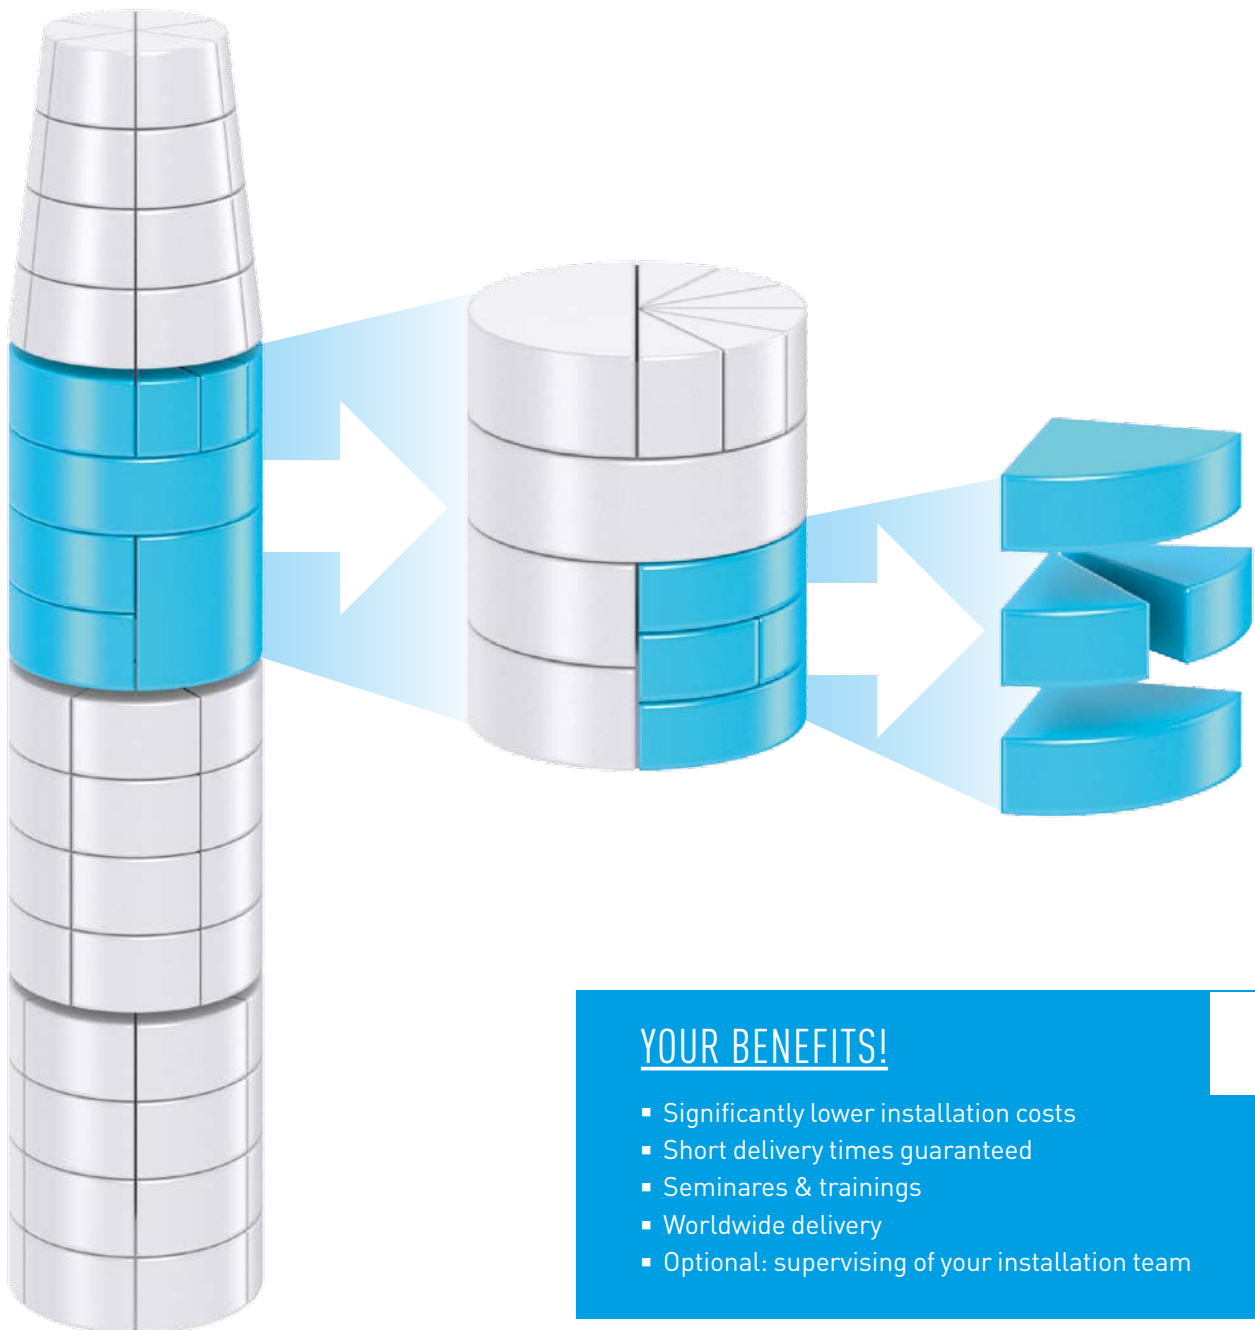

The internals for the sections of a wind tower comprise more than 3,000 individual parts.

ASSEMBLY GROUPS

We assign these assembly groups to the individual sections of the tower, allowing you to begin installation in the respective section straight away.

INSTALLATION UNITS

The individual assembly groups are prepared for easy installation. The connecting elements are on the components themselves, allowing assembly with minimum effort.

YOUR BENEFITS!

- Significantly lower installation costs
- Short delivery times guaranteed
- Seminars & trainings
- Worldwide delivery
- Optional: supervising of your installation team

ZARGES –
 Access.
 Packaging.
 Transportation.
 Special construction.
