

Application form

Application for authorization of the company to execute specific activities in accordance with operating instructions for "Tower service lift TBA6000-3"

1. In accordance with the EC Machine Directive, we as the manufacturer have created a hazard analysis.
One of the necessary measures which has emerged is that in order to execute specific activities (commissioning, fault remedy, inspection and maintenance) a training is necessary by us as the manufacturer.
This means that the qualified person in your company must have attended the necessary trainings.
2. The European directive 89 / 391 / EEC requires in Section 12 "Instruction of the employees" that for implementation or modification of work equipment or implementation of new technologies, employees receive sufficient and appropriate instruction.
This instruction must be repeated regularly if necessary.
3. The European directive 89 / 655 / EEC requires in Section 7 "Instruction of the employees" that the employees listed in Section 5 "Specific dangerous work equipment" (item 2) receive appropriate special instruction.
4. To fulfill these requirements, we as the manufacturer offer special training modules.
Please note that an additional training by the manufacturer of the winch is necessary.
Thus you also fulfill the requirements of the operating instructions.

To be confirmed by the applicant:

As the responsible employer, we herewith confirm the notice of the specifications above as well as knowledge of the European directives. In accordance with the operating instructions, qualified people will be employed exclusively who have also completed the necessary trainings to acquire the required technical knowledge. In addition, we are aware that the instruction has to be repeated regularly if necessary.

Sending the Application form (together with the Registration)

- § via Fax: +49 (0)881 / 687-296
- § via e-mail: Training-ZAS@zarges.de

With this signed confirmation, we apply for the authorization to execute activities in accordance with operating instructions TBA 6000-3.
